**TATA CONSULTANCY SERVICES LIMITED**  
**Condensed Standalone Interim Statement of Changes in Equity**

**Nature and purpose of reserves**

**a. Capital reserve**

The Company recognises profit and loss on purchase, sale, issue or cancellation of the Company's own equity instruments to capital reserve.

**b. Capital redemption reserve**

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

**c. Special Economic Zone re-investment reserve**

The Special Economic Zone (SEZ) re-investment reserve is created out of the profit of eligible SEZ units in terms of the provisions of section 10AA(1)(ii) of the Income-tax Act, 1961. The reserve will be utilised by the Company for acquiring new assets for the purpose of its business as per the terms of section 10AA(2) of Income-tax Act, 1961.

**d. Investment revaluation reserve**

This reserve represents the cumulative gains and losses arising on the revaluation of equity and debt instruments on the balance sheet date measured at fair value through other comprehensive income. The reserves accumulated will be reclassified to retained earnings and profit and loss respectively, when such instruments are disposed.

**e. Cash flow hedging reserve**

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the underlying hedged transaction occurs.

Mumbai, July 9, 2020

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**1) Corporate information**

Tata Consultancy Services Limited (referred to as “TCS Limited” or “the Company”) provides IT services, consulting and business solutions and has been partnering with many of the world’s largest businesses in their transformation journeys. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions. This is delivered through its unique Location-Independent Agile delivery model recognised as a benchmark of excellence in software development.

The Company is a public limited company incorporated and domiciled in India. The address of its corporate office is TCS House, Raveline Street, Fort, Mumbai - 400001. As at June 30, 2020, Tata Sons Private Limited, the holding company owned 72.02% of the Company’s equity share capital.

The Board of Directors approved the condensed standalone interim financial statements for the period ended June 30, 2020 and authorised for issue on July 9, 2020.

**2) Statement of compliance**

These condensed standalone interim financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) 34 Interim Financial Reporting prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time.

**3) Basis of preparation**

These condensed standalone interim financial statements have been prepared on historical cost basis, except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company’s normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows have been prepared under indirect method.

These condensed standalone interim financial statements have been prepared in Indian Rupee (₹) which is the functional currency of the Company. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The significant accounting policies used in preparation of the condensed standalone interim financial statements have been discussed in the respective notes.

**4) Use of estimates and judgements**

The preparation of the condensed standalone interim financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the condensed standalone interim financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

The Company uses the following critical accounting estimates in preparation of its condensed standalone interim financial statements:

**a. Revenue recognition**

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.
- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenue for fixed-price contract is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

**b. Useful lives of property, plant and equipment**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**c. Impairment of investments in subsidiaries**

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

**d. Fair value measurement of financial instruments**

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**e. Provision for income tax and deferred tax assets**

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**f. Provisions and contingent liabilities**

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the condensed standalone interim financial statements.

**g. Employee benefits**

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

**h. Leases**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

**Impact of COVID-19**

The Company has taken into account the possible impacts of COVID-19 in preparation of the condensed standalone interim financial statements, including but not limited to its assessment of liquidity and going concern assumption, recoverable values of its financial and non-financial assets, impact on revenues and on cost budgets in respect of fixed price contracts, impact on leases and impact on effectiveness of its hedging relationships. The Company has considered internal and certain external sources of information including reliable credit reports, economic forecasts and industry reports upto the date of approval of the condensed standalone interim financial statements and expects to recover the carrying amount of its assets. The impact of COVID-19 on the condensed standalone interim financial statements may differ from that estimated as at the date of approval of these condensed standalone interim financial statements.

**5) Financial assets, financial liabilities and equity instruments**

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**Cash and cash equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through other comprehensive income**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

**Financial assets at fair value through profit or loss**

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

**Investment in subsidiaries**

Investment in subsidiaries are measured at cost less impairment loss, if any.

**Financial liabilities**

Financial liabilities are measured at amortised cost using the effective interest method.

**Equity instruments**

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

**Derivative accounting**

• **Instruments in hedging relationship**

The Company designates certain foreign exchange forward, currency options and futures contracts as hedge instruments in respect of foreign exchange risks. These hedges are accounted for as cash flow hedges.

The Company uses hedging instruments that are governed by the policies of the Company which are approved by the Board of Directors. The policies provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company.

The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve.

The Company separates the intrinsic value and time value of an option and designates as hedging instruments only the change in intrinsic value of the option. The change in fair value of the time value and intrinsic value of an option is recognised in the statement of other comprehensive income and accounted as a separate component of equity. Such amounts are reclassified into the statement of profit and loss when the related hedged items affect profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in statement of profit and loss when the forecasted transaction ultimately affects the profit or loss. Any gain or loss is recognised immediately in statement of profit and loss when the hedge becomes ineffective.

• **Instruments not in hedging relationship**

The Company enters into contracts that are effective as hedges from an economic perspective, but they do not qualify for hedge accounting. The change in the fair value of such instrument is recognised in statement of profit and loss.

**Impairment of financial assets (other than at fair value)**

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

**(a) Investments**

Investments consist of the following:

**Investments – Non-current**

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020

<b>Total</b>	<b>-</b>	<b>-</b>	<b>34</b>	<b>659</b>	<b>19,082</b>	<b>19,775</b>

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables, loans receivables and trade payables as at June 30, 2020 and March 31, 2020 approximate the fair value. Difference between carrying amounts and fair values of bank deposits, earmarked balances with banks, other financial assets and other financial liabilities subsequently measured at amortised cost is not significant in each of the periods presented. Fair value measurement of lease liabilities is not required.

**(i) Fair value hierarchy:**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The cost of unquoted investments included in Level 3 of fair value hierarchy approximate their fair value because there is a wide range of possible fair value measurements and the cost represents estimate of fair value within that range.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

	(₹ crore)			
<b>As at June 30, 2020</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

**(j) Derivative financial instruments and hedging activity**

The Company's revenue is denominated in various foreign currencies. Given the nature of the business, a large portion of the costs are denominated in Indian Rupee. This exposes the Company to currency fluctuations.

The Board of Directors have constituted a Risk Management Committee (RMC) to frame, implement and monitor the risk management plan of the Company which inter-alia covers risks arising out of exposure to foreign currency fluctuations. Under the guidance and framework provided by the RMC, the Company uses various derivative instruments such as foreign exchange forward, currency options and futures contracts in which the counter party is generally a bank.

The following are outstanding currency options contracts, which have been designated as cash flow hedges:

Foreign currency	As at June 30, 2020			As at March 31, 2020		
	No. of contracts	Notional amount of contracts (In million)	Fair value (₹ crore)	No. of contracts	Notional amount of contracts (In million)	Fair value (₹ crore)
US Dollar	49	1,261	66	55	1,420	20
Great Britain Pound	69	403	82	71	384	59
Euro	63	408	(1)	38	363	(31)
Australian Dollar	45	244	(27)	26	192	48
Canadian Dollar	25	128	4	19	104	16

The movement in cash flow hedging reserve for derivatives designated as cash flow hedges is as follows:

	(₹ crore)			
	Three month period ended June 30, 2020		Year ended March 31, 2020	
	Intrinsic value	Time value	Intrinsic value	Time value
<b>Balance at the beginning of the period</b>	45	(68)	134	(30)
(Gain) / loss transferred to profit and loss on occurrence of forecasted hedge transactions	1	135	(449)	513
Deferred tax on (gain) / loss transferred to profit and loss on occurrence of forecasted hedge transactions	-	(41)	54	(38)
Change in the fair value of effective portion of cash flow hedges	(10)	(133)	355	(565)
Deferred tax on fair value of effective portion of cash flow hedges	2	40	(49)	52
<b>Balance at the end of the period</b>	<b>38</b>	<b>(67)</b>	<b>45</b>	<b>(68)</b>

The Company has entered into derivative instruments not in hedging relationship by way of foreign exchange forward, currency options and futures contracts. As at June 30, 2020 and March 31, 2020, the notional amount of outstanding contracts

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

aggregated to ₹41,535 crore and ₹40,109 crore, respectively and the respective fair value of these contracts have a net gain of ₹191 crore and net loss of ₹380 crore.

Exchange loss of ₹14 crore and exchange gain of ₹352 crore on foreign exchange forward, currency options and futures contracts that do not qualify for hedge accounting have been recognised in the condensed standalone interim statement of profit and loss for the three month periods ended June 30, 2020 and 2019, respectively.

Net foreign exchange gains include loss of ₹136 crore and gain of ₹96 crore transferred from cash flow hedging reserve for the three month periods ended June 30, 2020 and 2019, respectively.

**Impact of COVID-19**

**Foreign currency exchange rate risk**

The Company basis their assessment believes that the probability of the occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company continues to believe that there is no impact on effectiveness of its hedges.

**Other risks**

Financial assets carried at fair value as at June 30, 2020 is ₹29,414 crore and financial assets carried at amortised cost as at June 30, 2020 is ₹48,233 crore. A significant part of the financial assets carried at fair values are classified as Level 1 having fair values of ₹28,927 crore as at June 30, 2020. The fair value of these assets is marked to an active market which factors the uncertainties arising out of COVID-19. The financial assets carried at fair value by the Company are mainly investments in liquid debt securities and accordingly, any material volatility is not expected.

Financial assets of ₹3,827 crore as at June 30, 2020 carried at amortised cost is in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of ₹28,140 crore as at June 30, 2020 forms a significant part of the financial assets carried at amortised cost which is valued considering provision for allowance using expected credit loss method. In addition to the historical pattern of credit loss, we have considered the likelihood of delayed payments, increased credit risk and consequential default considering emerging situations while arriving at the carrying value of these assets. This assessment is not based on any mathematical model but an assessment considering the nature of verticals, impact immediately seen in the demand outlook of these verticals and the financial strength of the customers. The Company has specifically evaluated the potential impact with respect to customers in Retail, Travel, Transportation and Hospitality, Manufacturing and Energy verticals having an immediate impact and the rest having an impact with a lag. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, discounting of receivables with institutions on no-recourse basis, recognition of revenue on collection basis etc., depending on severity of each case. The collections pattern from the customers in the current period does not indicate stress beyond what has been factored while computing the allowance for expected credit losses. The same assessment is done in respect of unbilled receivables and contract assets of ₹7,638 crore as at June 30, 2020 while arriving at the level of provision that is required. Basis this assessment, the expected credit loss allowance for trade receivables of ₹975 crore as at June 30, 2020 is considered adequate.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**(k) Equity instruments**

The authorised, issued, subscribed and fully paid-up share capital consist of the following:

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020
<b>Authorised</b>		
460,05,00,000 equity shares of ₹1 each (March 31, 2020: 460,05,00,000 equity shares of ₹1 each)	460	460
105,02,50,000 preference shares of ₹1 each (March 31, 2020: 105,02,50,000 preference shares of ₹1 each)	105	105
	<b>565</b>	<b>565</b>
<b>Issued, Subscribed and Fully paid up</b>		
375,23,84,706 equity shares of ₹1 each (March 31, 2020: 375,23,84,706 equity shares of ₹1 each)	375	375
	<b>375</b>	<b>375</b>

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

**6) Leases**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**Company as a lessee**

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

**Company as a lessor**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

The details of the right-of-use asset held by the Company is as follows:

	(₹ crore)			
	Additions for three month period ended June 30, 2020	Net carrying amount as at June 30, 2020	Additions for the year ended March 31, 2020	Net carrying amount as at March 31, 2020
Leasehold land	-	688	474	690
Buildings	270	5,350	1,689	5,336
Leasehold improvement	-	18	-	20
Vehicles	-	1	-	2
	<b>270</b>	<b>6,057</b>	<b>2,163</b>	<b>6,048</b>

Depreciation on right-of-use assets is as follows:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Leasehold land	2	1
Buildings	255	201
Leasehold improvement	1	1
Vehicles	-	1
	<b>258</b>	<b>204</b>

Interest on lease liabilities is ₹116 crore and ₹100 crore for the three months period ended June 30, 2020 and 2019, respectively.

**Impact of COVID-19**

The Company does not foresee any large-scale contraction in demand which could result in significant down-sizing of our employee base rendering the physical infrastructure redundant. The leases that the Company has entered with lessors towards properties used as delivery centers / sales offices are long term in nature and no significant changes in the terms of those leases are expected due to the COVID-19.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**7) Non-financial assets and non-financial liabilities**

**(a) Property, plant and equipment**

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual value are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

<u>Type of asset</u>	<u>Useful lives</u>
Buildings	20 years
Leasehold improvements	Lease term
Plant and equipment	10 years
Computer equipment	4 years
Vehicles	4 years
Office equipment	5 years
Electrical installations	4-10 years
Furniture and fixtures	5 years

Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**(b) Intangible assets**

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences which are amortised over licence period which equates the economic useful life ranging between 2-5 years on a straight line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Intangible assets consist of the following:

	(₹ crore)
	<b>Rights under licensing agreement and software licences</b>

**Notes forming part of the Condensed Standalone Interim Financial Statements**

**(d) Inventories**

Inventories consists of a) Raw materials, sub-assemblies and components, b) Work-in-progress, c) Stores and spare parts and d) Finished goods. Inventories are carried at lower of cost and net realisable value. The cost of raw materials, sub-assemblies and components is determined on a weighted average basis. Cost of finished goods produced or purchased by the Company includes direct material and labour cost and a proportion of manufacturing overheads.

Inventories consist of the following:

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020
Raw materials, sub-assemblies and components	5	5
Finished goods and work-in-progress*	-	-
	5	5

\*Represents value less than ₹0.50 crore.

**(e) Other liabilities**

Other liabilities consist of the following:

**Other liabilities – Current**

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020
Advance received from customers	329	226
Indirect taxes payable and other statutory liabilities	2,694	1,762
Operating lease liabilities	2	2
Others	72	58
	<b>3,097</b>	<b>2,048</b>

**8) Revenue recognition**

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from subsidiaries is recognised based on transaction price which is at arm's length.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue disaggregation by nature of services is as follows:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Consultancy services	31,305	32,129
Sale of equipment and software licences	319	528
	<b>31,624</b>	<b>32,657</b>

Revenue disaggregation by industry vertical is as follows:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Banking, Financial Services and Insurance	11,990	11,834
Manufacturing	2,793	2,974
Retail and Consumer Business	5,133	5,658
Communication, Media and Technology	5,786	5,535
Others	5,922	6,656
	<b>31,624</b>	<b>32,657</b>

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

Revenue disaggregation by geography is as follows:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Americas	18,561	18,347
Europe	8,574	9,189
India	1,615	2,220
Others	2,874	2,901
	<b>31,624</b>	<b>32,657</b>

Geographical revenue is allocated based on the location of the customers.

**Impact of COVID-19**

While the Company believes strongly that it has a rich portfolio of services to partner with customers, the impact on future revenue streams could come from the inability of our customers to continue their businesses due to financial resource constraints or their services no-longer being availed by their customers. The Company has assessed that customers in Retail, Travel, Transportation and Hospitality, Energy and Manufacturing verticals are more prone to immediate impact due to disruption in supply chain and drop in demand while customers in Banking, Financial Services to have a lag impact due to dependence of revenues from the impacted verticals. The financial performance in the current quarter reflects the impact on revenues from affected sectors and the Company has considered such impact to the extent known and available currently. While entities are re-calibrating their approach to deal with the economic impact of the pandemic in their operations, the assessment of impact on future revenues is a continuing process given the uncertainties associated with its nature and duration.

The supply side disruptions due to ongoing pandemic, which could result in having impact on future cost budgets or delays in meeting contractual commitments have largely taken care of by deploying SBWS™, approvals from the customer to render services through SBWS™. The Company has taken steps to assess the cost budgets required to complete its performance obligations in respect of fixed price projects and incorporated the impact of likely delays / increased costs in meetings its obligations. Such impact could be in the form of provision for onerous contracts or re-setting of revenue recognition in fixed price contract where revenue is recognised on percentage-of-completion basis. The Company has also assessed the impact of delays and inability to meet contractual commitments and has taken actions such as engaging with the customer to agree on revised SLAs in light of current crisis, invoking of force-majeure clause etc. to ensure that revenue recognition in such cases reflect realisable revenues.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**9) Other Income**

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using the effective interest method.

Other income consist of the following:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Interest income	585	957
Dividend income	74	744
Net gain on investments carried at fair value through profit or loss	45	92
Net gain on disposal of property, plant and equipment	1	3
Net foreign exchange gain / (loss)	(19)	398
Rent income	-	1
Other income	20	10
	<b>706</b>	<b>2,205</b>

**Interest income comprise:**

Interest on bank balances and bank deposits	13	135
Interest on financial assets carried at amortised cost	131	148
Interest on financial assets carried at fair value through OCI	441	478
Other interest (including interest on tax refunds)	-	196

**Dividend income comprise:**

Dividends from subsidiaries	74	744
-----------------------------	----	-----

**10) Employee benefits**

**Defined benefit plans**

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Past service cost, both vested and unvested, is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

The Company provides benefits such as gratuity, pension and provident fund (Company managed fund) to its employees, which are treated as defined benefit plans.

**Defined contribution plans**

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Company provides benefits such as superannuation and foreign defined contribution plans to its employees which are treated as defined contribution plans.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**Short-term employee benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Compensated absences**

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

Employee benefit expenses consist of the following:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Salaries, incentives and allowances	15,187	14,334
Contributions to provident and other funds	1,032	981
Staff welfare expenses	418	408
	<b>16,637</b>	<b>15,723</b>

Employee benefit obligations consist of the following:

**Employee benefit obligations – Non-current**

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020
Other employee benefit obligations	97	91
	<b>97</b>	<b>91</b>

**Employee benefit obligations – Current**

	(₹ crore)	
	As at June 30, 2020	As at March 31, 2020
Compensated absences	2,256	2,034
Other employee benefit obligations	28	23
	<b>2,284</b>	<b>2,057</b>

**11) Cost recognition**

Costs and expenses are recognised when incurred and have been classified according to their nature.

The costs of the Company are broadly categorised in employee benefit expenses, cost of equipment and software licences, depreciation and amortisation expense and other expenses. Other expenses mainly include fees to external consultants, facility expenses, travel expenses, communication expenses, bad debts and advances written off, allowance for doubtful trade receivable and advances (net) and other expenses. Other expenses is an aggregation of costs which are individually not material such as commission and brokerage, recruitment and training, entertainment, etc.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**(a) Cost of equipment and software licences**

Cost of equipment and software licences consist of the following:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Raw materials, sub-assemblies and components consumed	-	8
Equipment and software licences purchased	283	467

Less: Closing stock*	-	-
	<b>1</b>	<b>-</b>
	<b>284</b>	<b>475</b>

\*Represents value less than ₹0.50 crore.

**(b) Other expenses**

Other expenses consist of the following:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Fees to external consultants	3,387	3,405
Facility expenses	419	543
Travel expenses	246	731
Communication expenses	316	240
Bad debts and advances written off, allowance for doubtful trade receivables and advances (net)	48	49
Other expenses	1,693	1,830
	<b>6,109</b>	<b>6,798</b>

Other expenses include ₹718 crore and ₹901 crore for the three months period ended June 30, 2020 and 2019, respectively, towards sales, marketing and advertisement expenses.

**12) Finance costs**

Finance costs consist of the following:

	(₹ crore)	
	Three month period ended June 30, 2020	Three month period ended June 30, 2019
Interest on lease liabilities	117	100
Interest on tax matters	1	132
Other interest costs	-	1
	<b>118</b>	<b>233</b>

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

**13) Income taxes**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

**Current income taxes**

The current income tax expense includes income taxes payable by the Company and its branches in India and overseas. The current tax payable by the Company in India is Indian income tax payable on worldwide income after taking credit for tax relief available for export operations in Special Economic Zones (SEZs).

Current income tax payable by overseas branches of the Company is computed in accordance with the tax laws applicable in the jurisdiction in which the respective branch operates. The taxes paid are generally available for set off against the Indian income tax liability of the Company's worldwide income.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

**Deferred income taxes**

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

For operations carried out in SEZs, deferred tax assets or liabilities, if any, have been established for the tax consequences of those temporary differences between the carrying values of assets and liabilities and their respective tax bases that reverse after the tax holiday ends.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

**Direct tax contingencies**

The Company has ongoing disputes with income tax authorities relating to tax treatment of certain items. The disputes relate to tax treatment of certain expenses claimed as deductions, computation or eligibility of tax incentives or allowances, and characterisation of fees for services received. The Company has contingent liability in respect of demands from direct tax authorities in India and other jurisdictions, which are being contested by the Company on appeal amounting ₹1,453 crore and ₹1,453 crore as at June 30, 2020 and March 31, 2020 respectively. In respect of tax contingencies of ₹318 crore and ₹318 crore as at June 30, 2020 and March 31, 2020, respectively, not included above, the Company is entitled to an indemnification from the seller of TCS e-Serve Limited.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

The Company periodically receives notices and inquiries from income tax authorities related to the Company's operations in the jurisdictions it operates in. The Company has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution.

**14) Earnings per share**

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The Company did not have any potentially dilutive securities in any of the periods presented.

	<b>Three month period ended June 30, 2020</b>	<b>Three month period ended June 30, 2019</b>
Profit for the period (₹ crore)	6,096	8,714
Weighted average number of equity shares	375,23,84,706	375,23,84,706
Basic and diluted earnings per share (₹)	16.25	23.22
Face value per equity share (₹)	1	1

**15) Segment information**

The Company publishes the condensed standalone interim financial statements of the Company along with the condensed consolidated interim financial statements. In accordance with Ind AS 108, Operating Segments, the Company has disclosed the segment information in the condensed consolidated interim financial statements.

**16) Commitments and Contingencies**

**Capital commitments**

The Company has contractually committed (net of advances) ₹1,146 crore and ₹1,272 crore as at June 30, 2020 and March 31, 2020, respectively, for purchase of property, plant and equipment.

**Contingencies**

- **Direct tax matters**

Refer note 13.

- **Indirect tax matters**

The Company has ongoing disputes with tax authorities mainly relating to treatment of characterisation and classification of certain items. The Company has demands amounting to ₹464 crore and ₹464 crore as at June 30, 2020 and March 31, 2020, respectively from various indirect tax authorities which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

- **Other claims**

Claims aggregating ₹114 crore and ₹133 crore as at June 30, 2020 and March 31, 2020, respectively, against the Company have not been acknowledged as debts.

In addition to above in October 2014, Epic Systems Corporation (referred to as Epic) filed a legal claim against the Company in the Court of Western District Madison, Wisconsin for alleged infringement of Epic's proprietary information. In April 2016, the Company received an unfavourable jury verdict awarding damages totalling ₹7,098 crore (US \$940 million) to Epic. In September 2017, the Company received a Court order reducing the damages from ₹7,098 crore (US \$940 million) to ₹3,171 crore (US \$ 420 million) to Epic. Pursuant to US Court procedures, a Letter of Credit has been made available to Epic for ₹3,322 crore (US \$440 million) as financial security in order to stay execution of the judgment pending post-judgment proceedings and appeal. Pursuant to reaffirmation of the Court order in March 2019, the Company has filed a notice of appeal in the superior Court to fully set aside the Order. Epic has also filed a cross appeal challenging the

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of the Condensed Standalone Interim Financial Statements**

reduction by the trial judge of ₹755 crore (US \$100 million) award and ₹1,510 crore (US \$200 million) in punitive damages. The Company has received legal advice to the effect that the order and the reduced damages awarded are not supported by evidence presented during the trial.

- **Bank guarantees and letter of comfort**

The Company has given letter of comfort to banks for credit facilities availed by its subsidiaries. As per the terms of letter of comfort, the Company undertakes not to divest its ownership interest directly or indirectly in the subsidiary and provide such managerial, technical and financial assistance to ensure continued successful operations of the subsidiary.

The Company has provided guarantees to third parties on behalf of its subsidiaries. The Company does not expect any outflow of resources in respect of the above.

The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

- 17) The proposed Social Security Code, 2019, when promulgated, would subsume labour laws including Employees' Provident Funds and Miscellaneous Provisions Act and amend the definition of wages on which the organisation and its employees are to contribute towards Provident Fund. The Company believes that there will be no significant impact on its contributions to Provident Fund due to the proposed amendments. Additionally, there is uncertainty and ambiguity in interpreting and giving effect to the guidelines of Hon. Supreme Court vide its ruling in February 2019, in relation to the scope of compensation on which the organisation and its employees are to contribute towards Provident Fund. The Company will evaluate its position and act, as clarity emerges.

**18) Related party transactions**

The Company paid an amount of ₹1,621 crore to Tata Sons Private Limited, the holding company, towards final dividend for the year ended March 31, 2020, as approved by the shareholders in the Annual General Meeting.

Other than above, the Company's material related party transactions during the period and outstanding balances as on date are with its subsidiaries with whom the Company routinely enters into transactions in the ordinary course of business.

**19) Subsequent event**

The Board of Directors at its meeting held on July 9, 2020 has declared an interim dividend of ₹5 per equity share.
